YOUR GUIDE TO: Inpatient Rehabilitation

St. David's | REHABILITATION

The Best Is Here.

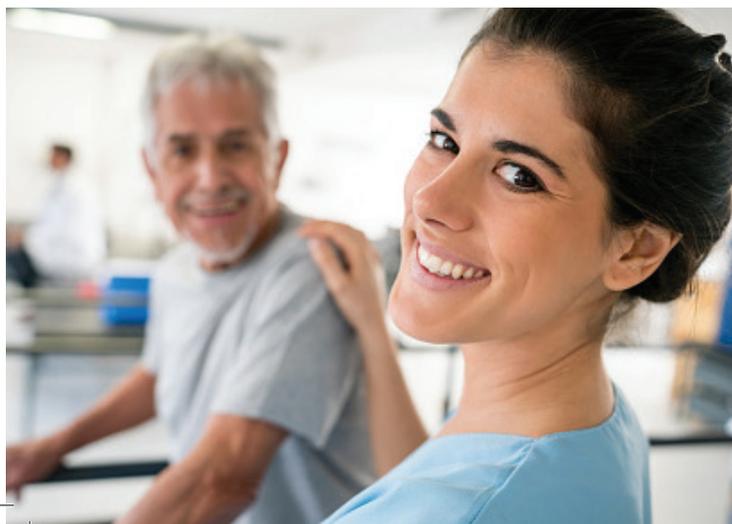

Your Care, Our Mission

St. David's Rehabilitation offers Acute Inpatient Rehabilitation in four convenient Central Texas locations. We serve patients with a variety of diagnoses, including complex traumatic brain and spinal cord injuries, stroke and other neurological impairments, amputation and orthopedic conditions and injuries. Our team provides the care you need in a compassionate and supportive environment with a focus on both physical and emotional needs.

Our goal is to ensure medical stability while helping our patients recover physical and cognitive function. Our dedicated rehabilitation team works with our patients and their families to achieve maximal independence, enhance quality of life, and facilitate a seamless transition home.

We know you have a choice when selecting a rehabilitation partner. At St. David's Rehabilitation, we are committed to helping our patients achieve the best possible outcome, and we strive daily to uphold our mission—to provide exceptional care to every patient every day with a spirit of warmth, friendliness and personal pride.

We invite you to tour our rehabilitation centers and meet our team. Please call us at 512-544-8993 for more information about our programs.

Multi-Disciplinary Approach

St. David's Rehabilitation provides essential medical management along with the most comprehensive and skilled therapy services available. From medication oversight and therapeutic interventions, to patient/family education and discharge planning, our multidisciplinary team works with each patient to customize a plan of care based on the individual's diagnostics, needs and personal goals. Our team includes:

- Board Certified Rehabilitation Physicians
- Internal Medicine Physicians
- Medical Specialists
- Certified Rehabilitation Nurses
- Occupational Therapists
- Physical Therapists
- Speech Language Pathologists
- Case Managers
- Respiratory Therapists
- Pharmacists
- Registered Dieticians
- Psychologists
- Patient Care Technicians

Therapy Services

Our highly trained therapy team of licensed Occupational Therapists, Physical Therapists and Speech-Language Pathologists includes practitioners with advanced specialized training and certification in areas such as neurological rehab. We offer state-of-the-art rehabilitative equipment and are guided by current, evidence-based practice. Our patients actively participate in a minimum of 3 hours of therapy per day, 5 days per week or the equivalent, with the ultimate goal of maximizing independence and quality of life. Therapy sessions address individual deficits with a focus on improving:

- Functional Mobility
- Gross Motor and Fine Motor Skills
- Motor and Fine Motor Skills
- Vision/Perception
- Speech/Language and Cognition
- Swallowing/Eating
- Everyday self-care activities, such as dressing and bathing
- Patient and Family Training and Education
